PROFILE SUMMARY

Dedicated Django web developer with a strong foundation in Python and web technologies, recently certified in full-stack development. Knowledgeable in Django, HTML, CSS, JavaScript, and API integration, with hands-on project experience. Eager to contribute my skills to building dynamic web applications and grow within a collaborative team environment.

EDUCATION

2007-2011

DHANALAKSHMI SRINIVASAN
ENGG COLLEGE
B.Tech - IT

WORK EXPERIENCE

Intern

2030 - PRESENT

VRG Technologies,chennai

- Developing and maintaining web applications using Django and Python, contributing to various stages of the development lifecycle.
- Collaborating with team members on bug fixes, feature enhancements, and code reviews.
- Gaining hands-on experience in industry practices and improving skills in web development.

SKILLS

- Python Programming
- Numpy
- Pandas
- matplotlib
- Mysql
- HTML,CSS,JS
- Django

PROJECTS

2025 - 2029

University Management System:

- Built a comprehensive management system using Django, allowing efficient handling of student, faculty, and course data. Utilized HTML, CSS, and JavaScript for front-end elements and integrated PostgreSQL for database management.
- Python Projects: Developed smaller projects leveraging Python libraries such as Pandas for data manipulation, Matplotlib for data visualization, and Flask for basic web applications, showcasing flexibility in Python-based applications and libraries..
